

1 Carbon Reduction Plan

- Supplier: Amigoco Limited
- Publication date: 3rd January 2025

1.1 Commitment to achieving Net Zero

Amigoco has a commitment to be Net Zero by 2030. Amigoco has a published [sustainability statement](#).

1.2 Baseline Emissions Footprint

Amigoco has a commitment to be Net Zero by 2030.

Baseline Year: 2017	
Additional Details relating to the Baseline Emissions calculations.	
In 2017, the majority of our work was conducted at customer office locations.	
Transportation	
Since 2017, Amigoco has sought to conduct all its business travel utilising public transport, including rail, tram and bus services where available. For consultants that are able, we encourage incorporating walking, running and cycling as part of any business commute or travel.	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0.112
Scope 2	0.007
Scope 3 (Included Sources)	3.796
Total Emissions	3.915

1.3 Current Emissions Reporting

Reporting Year: 2024	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0.020
Scope 2	0.210
Scope 3	0.131

(Included Sources)	
Total Emissions	0.361

1.4 Emissions reduction targets

Promote Environmentally Friendly Ways of Working

In 2020, Amigoco became a remote-first company. This means we encourage our consultants to work from home, a co-working space, café or wherever is suitable. Some of our engagements require on-premises work with clients and other third parties. We balance these commitments with the well-being of our consultants and our social responsibility to reduce CO2 emissions.

We do this by encouraging the use of remote meeting and collaboration tooling such as Teams, Slack, Confluence and Jira. Together with encouraging modern software development and delivery practises, such as DevOps and GitOps, we seek to increase overall productivity and efficiency.

Greenhouse Gas Emissions and Net Zero

Amigoco has a commitment to be Net Zero by 2030. We will achieve this by continuing to promote environmentally friendly ways of working for our consultants, customers and supply chain, together with investing in high-quality certified offsets focusing on local communities. Since 2017, Amigoco has reduced its overall Scope 1, 2 and 3 emissions from over 3,900kg to less than 400kg, despite significantly increased turnover. This is broadly outlined in the chart below.

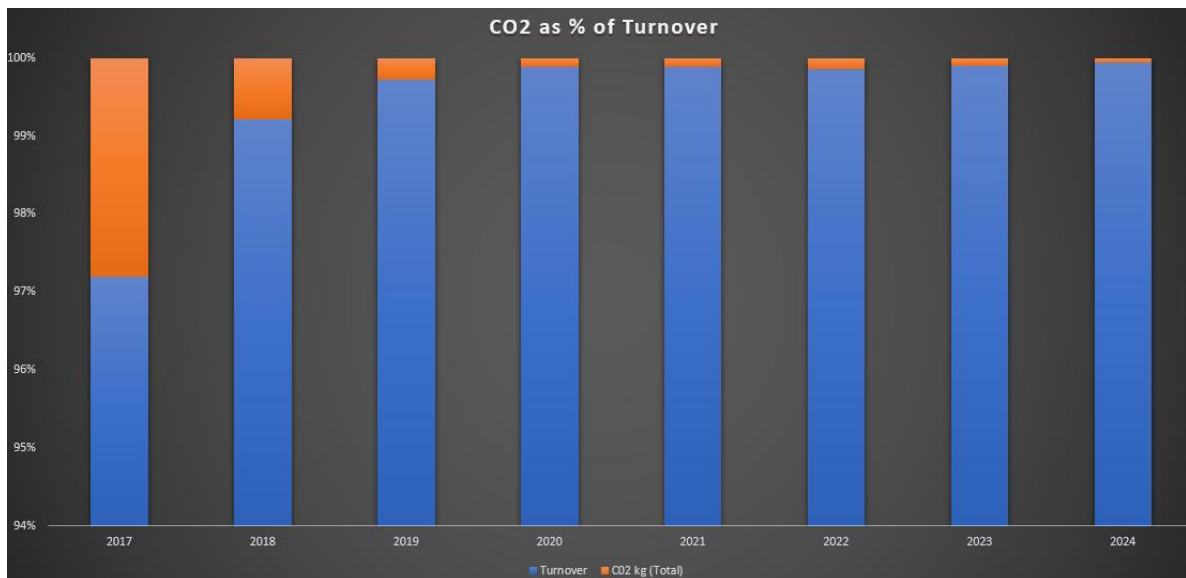

Figure 1 Amigoco - CO2 expressed as % of turnover

1.5 Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting .

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard .

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:

Giacomo Marletta
